

We're reinventing the wheel

Corridor Capital Offers:

Better Trains

Superior high-capacity bi-level equipment, designed and fitted to state specifications to meet the rigorous needs of all-weather travel. Includes inviting interiors, improved baggage handling, bicycle racks, enhanced food and beverage service areas, WiFi in every car, and the latest technology for passenger information and convenience.

Better Seats

Innovative, new custom seats – *made in the USA* – designed for comfort, convenience, and durability.

Better Food

Extensive, and appealing menus, featuring the finest foods and beverages produced in your region, prepared and served with style. Whether a meal or a snack, a local soda or micro-brew or cocktail, service is available for the entire trip.

Better Service Level Choices

Passengers will be able to reserve their favorite seats in family-friendly coach, Business Class, or the innovative Campus Car for economy student travel and those traveling short distances on a budget.

Better Stations

Reworked stations designed to offer more services, create more revenue, and serve passengers better.

Better Yield Management

A sophisticated yield management system which will create better revenues, better forecasting, more available seats and better customer service.

Better Marketing

A reservations system designed to maximize passenger ease of use, present the widest choices of travel options, and sell high-profit peripheral services such as travel packages, hotels, resorts, rental cars, travel insurance, and more.

Always,
All-American
Made
